

Student Satisfaction Survey Report 2020-21

The students are irrefutably the most important stakeholders of our education systems. The interest and participation of students at all levels in both internal quality assurance and external quality assurance have played a central role in every higher education institution. Our College is also not an exception to it. Any higher education institution needs to ensure that students have a voice at various decisions making processes; formulating, learning and teaching practices and those views of students are to be considered as the primary evidence on which the quality of teaching and learning is evaluated.

Student Satisfaction Survey (SSS) has been conducted to evaluate the institutional performance. It consists of 15 parameters regarding the overall facilities of the college. The feedback form was provided a grade scale (poor, average, good and excellent) to the students to evaluate the parameters. For an impartial analysis on feedback, the data was collected from the sixteen different departments of the college from the different semesters including science, arts and commerce stream. Basic statistical tools are used to analyze each criterion and are presented in charts.

2. Availability of books/newspapers/magazine in the library

3. Sufficient space for reading in the library

4. Classroom facility

5. Laboratory facility

6. Washroom and drinking water facility

7. Canteen facility

8. Sports facilities
